

A ROAD SAFETY NONPROFIT · NEW DELHI

Crashfree India

**Adding capacity to India's road safety system:
evidence, institutions, and technology that follows through**

Field audits and research to official standards, fixed with the authorities that own the road

Technology for police, victims and the public: enforcement, open data, and a chatbot on WhatsApp

Working inside the machinery: 4 district committees, police MoUs, 25+ written approvals

**MS DHONI · GOODWILL AMBASSADOR,
CRASHFREE INDIA**

Crashfree India: a nonprofit that adds **capacity** to road safety work

Registered as the Vision Zero Trust · Co-founded by Cars24 and the Indian Road Safety Council · Working since June 2025 · New Delhi

- 

Evidence first

Structured field audits, file reviews and research to official standards, not opinion.
- 

Institutional collaboration

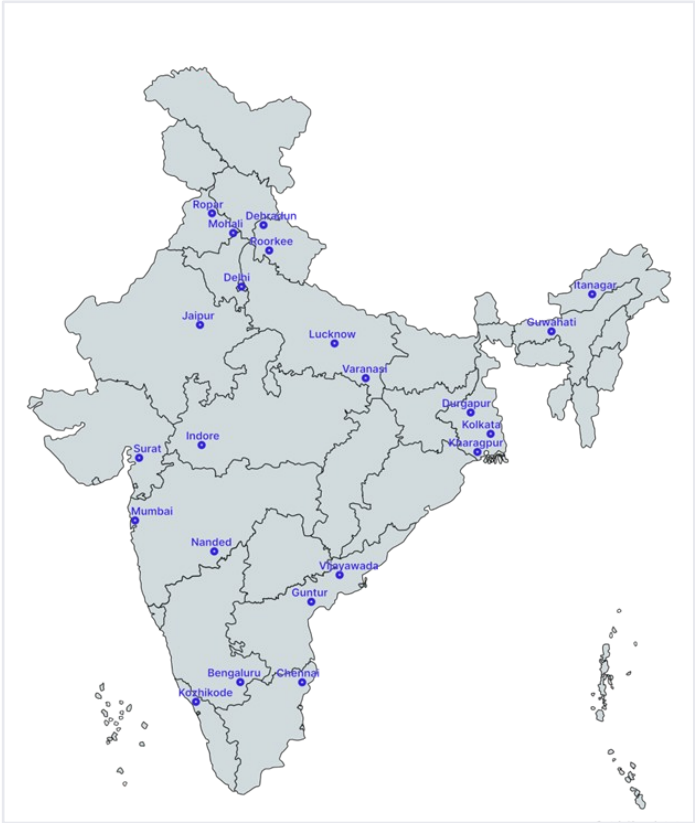

We work through PWDs, NHAI, transport departments, police and District Road Safety Committees.
- 

Youth-led capacity

Trained student teams from IITs, NITs and SPAs add the auditing hands the system needs.
- 

Technology for follow-through

Public dashboards track every recommendation from submission to completion.

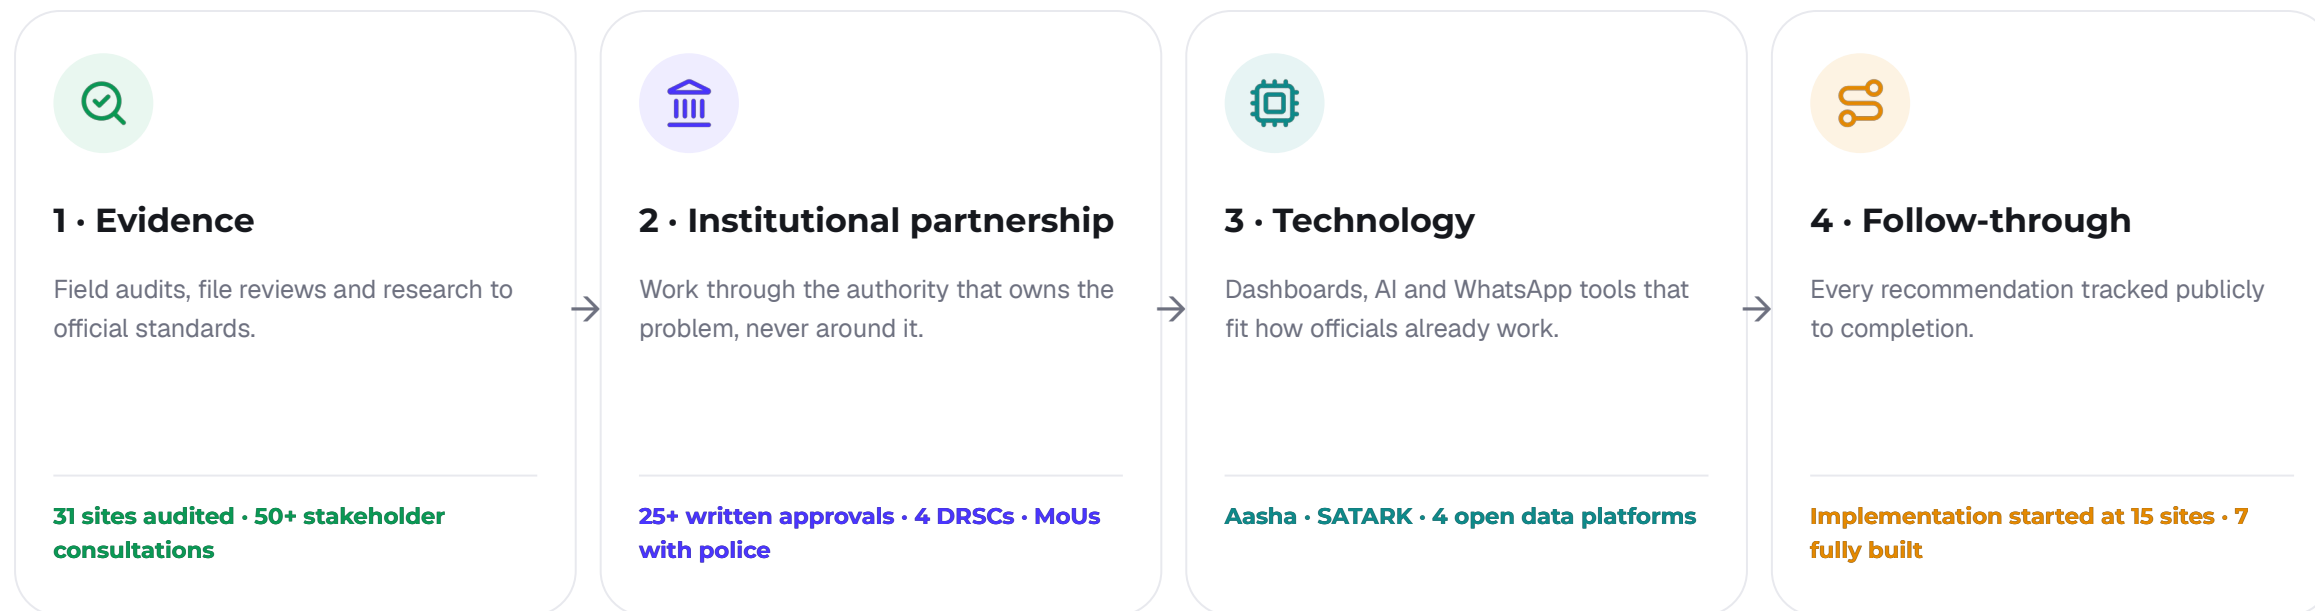

Where we work today, 18 cities, north to south.

Backed by a US\$3 million, three-year commitment from Cars24. Programmes, not overheads, receive 71% of the budget.

Our approach: work **with the system**, and prove it with data

Four steps, applied to every problem we take up, from a dangerous junction to a stalled compensation claim.

We do not replace the system and we do not campaign against it. We add hands, evidence and tools to work the system has already committed to.

Six lines of work, one connected system

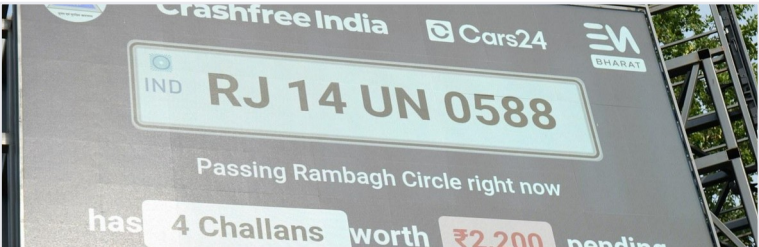

Audits create data · data supports policy · policy guides the field. Everything below is live today.

Project Rakshak

Student-led road audits, fixed with authorities

31 sites · 7 fixes fully built

SATARK enforcement

AI support that helps police find high-risk vehicles

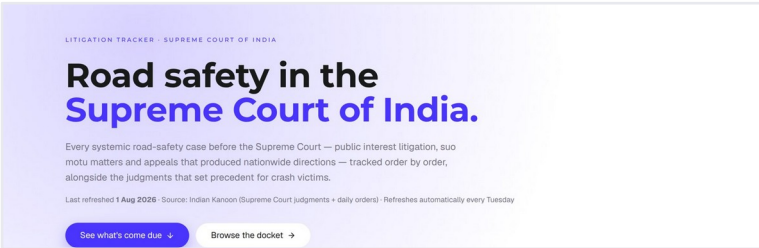

3,00,000+ vehicles screened

Victim support

Aasha chatbot, calculator, hospital helpdesks

100+ victims helped in first 4 days

Open public data

Four self-updating data platforms, free to use

36 states & 50 cities covered

Youth & policy

NextMile ideathon and national dialogue series

2,000+ participants engaged

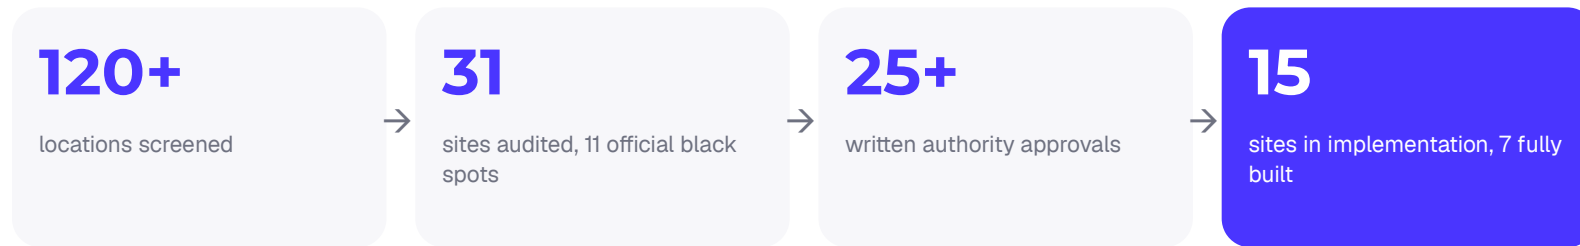

Public campaigns

Road Safety Month with police & schools; MS Dhoni

1M+ citizens reached

Project Rakshak: student audits that end in built fixes

Trained student teams, guided by senior experts, audit dangerous locations to IRC codes, and we walk each fix through the road-owning authority until it is built.

31 student teams · 20 institutions including nine IITs · 900+ stakeholder surveys · 17 subject-matter experts guiding every audit

MARQUEE CASE, OUTER RING ROAD, SOUTH DELHI

On our audit, PWD built a continuous 1.8 m accessible pedestrian corridor, upgraded drainage at ponding sites, installed bollards against footpath encroachment, and deployed camera-backed speed-feedback boards.

Every site is tracked on a public dashboard from submission through approval to completed construction, an honest read on how quickly agencies can act.

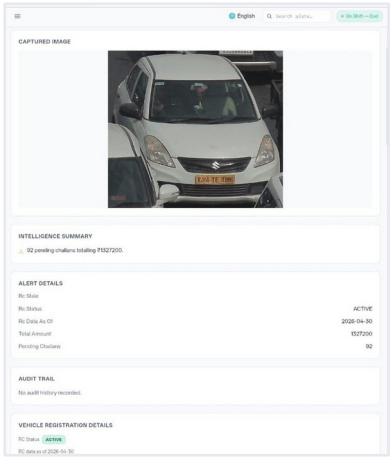

Construction underway after a student audit, tracked publicly to completion.

SATARK: AI that helps police stop the right vehicle

Built with Cars24 engineers. Reads number plates, checks government records, and alerts officers to repeat offenders, in real time.

Rambagh Circle, Jaipur, live plate, pending challans and dues on a public billboard.

Officer view, challans, RC & compliance status.

3,00,000+

vehicles screened

₹30 Cr+

pending challan value identified

350+

high-risk vehicles intercepted

70,019

vehicles found with pending challans

LIVE · Jaipur & Bengaluru

NEW · Gurugram

Bengaluru's Trinity Circle billboard was India's first, covered by Deccan Herald and national press. Pune and Ahmedabad are next.

Live public data platforms, free for any authority

Four platforms, each turning a scattered public record into structured, citable evidence. The Parliament tracker is shown live, as captured this week.

Crashfree India

A Cars24 Commitment

RTI WATCH · PARLIAMENT WATCH

A CRASHFREE INDIA PUBLIC DATABASE

Every road-safety question in Parliament since 2014.

And the MPs who never asked one.

All 1,444 Lok Sabha and Rajya Sabha questions on road safety — put to the four ministries that own it: Road Transport & Highways, Health (trauma care), Heavy Industries (vehicle standards), and Housing & Urban Affairs (pedestrian safety). Reconciled against Parliament's own records so nothing is missed. Search who asks,

Road Safety in Parliament: all 1,444 questions since 2014 across four ministries; 275 of 540 sitting Lok Sabha MPs have never asked one.

National Road-Infrastructure Defect Repository

DAILY · 07:00 IST

An AI pipeline reads local-language news every morning and turns road-defect reports into structured, mapped, ranked evidence, each entry carrying its verbatim source.

Potholes

Missing signage

Unlit stretches

Blind curves

Broken dividers

146

districts scanned daily

13

21

defect codes tracked

Local news → AI extraction → confidence gate → human review → public map. Live across Bihar, UP and Rajasthan districts today.

Supreme Court Litigation Tracker

WEEKLY · LIVE

Every systemic road-safety matter before the Supreme Court, orders indexed, precedent judgments digested, refreshed every Tuesday.

18

tracked cases, 190+ orders

11

court directions overdue at launch

Crash Data Dashboard

ANNUAL · OPEN DATA

MoRTH's annual 'Road Accidents in India' books as a usable product: report cards for 36 states and 50 cities, every number reconciled against the printed books, open licence (CC-BY).

485

people killed per day (RAI 2024)

36+50

state and city report cards

Help a family can actually use, in their language

From the first hours after a crash to the final compensation order, on WhatsApp, on paper, and in person.

The screenshot displays the Aasha chatbot interface within a mobile application. At the top, there's a header with the Aasha logo and a 'Help' button. Below the header, the chatbot is shown in a conversation with a user. The user's message is in Hindi, asking how to report a road accident. The chatbot's response is in Hindi and provides a step-by-step guide on how to report an accident, including contacting the police, filing an FIR, and obtaining a police report. It also mentions the importance of getting medical attention and keeping all documents. The chatbot's response is in a light blue bubble, while the user's message is in a white bubble. The chatbot's name 'Aasha' is visible at the top of the chat bubble. The interface is clean and user-friendly, with a focus on providing clear and concise information.

Hospital helpdesks bring all of this to the trauma-ward bedside , 100+ victims supported in the first four days, run with DLSA and Neev Foundation.

The fastest-growing risk on Indian roads **rides a two-wheeler**

Two-wheeler riders carry the largest share of road deaths, and gig and delivery work concentrates that exposure. We study it, and we work it.

~45%

of India's crash fatalities are two-wheeler users, rising year on year

23.5 M

gig and platform workers projected by 2029-30 (NITI Aayog)

1 in 2

delivery riders in a 431-rider Mumbai crash study had already crashed

A published study

'When Risks Become Routine' (Feb 2026): 40 pages, 87 references, from incentive design and helmet compliance to the e-bike regulatory blind spot.

A 300-rider study, now in the field

Quantifying how often riders face near-misses, which risk factors matter most, and what rider profiles exist, so interventions can be targeted.

Field, not only desk

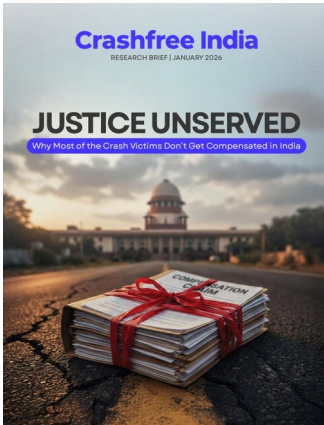

Fieldwork included shadowing a delivery rider through a full nine-hour shift, documented on video.

Delivery-rider outreach, Road Safety Month 2026.

Published evidence the sector cites

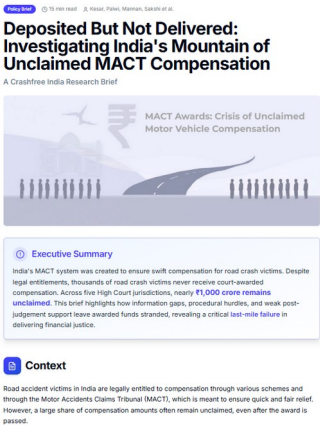

Original research, launched publicly and covered by national press. Each report turns a policy gap into something authorities can act on.

'Justice Unserved'

Jan 2026

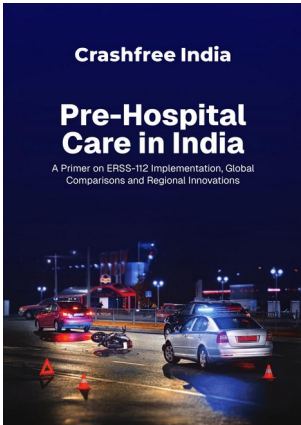

Why so few hit-and-run and third-party claims reach the families entitled to them. Launched at IIT Delhi; findings presented to MoRTH.

'Deposited But Not Delivered'

2026

~₹986 crore of court-awarded compensation lies unclaimed across five High Court jurisdictions, a bottleneck the Supreme Court noted in 2025.

Pre-Hospital Care Primer

Sep 2025

Benchmarks ERSS-112 response and documents state EMS innovations, with contributions from the AIIMS Trauma Centre.

Plus: the gig-rider brief 'When Risks Become Routine', and four open public-data platforms, all free to use and openly licensed.

Young talent and senior experts, working the same problem

A steady pipeline of engineers and policy minds, so road safety work never runs out of hands.

NextMile: Road Safety Policy Ideathon, grand finale, 28 Sep 2025, New Delhi.

National Road Safety Implementation Forum, IIT Delhi: 60+ experts from MoRTH, WHO, UNICEF, iRAP and CSIR-CRRI reviewed the work.

2,000+

participants

250+

concept notes

700+

teams

10

finalist teams

Mentors and jury from the Government of Rajasthan, NIUA, OMI, NASSCOM and CSEP judged the student teams; winning tracks now feed our audit and research pipeline.

National Road Safety Dialogue Series
200+ live attendees; speakers from MoRTH, CIRT, AIIMS Trauma Centre, CSIR-CRRI and ARAI.

Three sessions so far
Bus safety · Delivery rider safety · Good Samaritan law & the Cashless Treatment Scheme.

Advocacy on video
Our YouTube channel documents hazards and fixes on camera: ground-audit walkthroughs, Dialogue Series recordings and victim-education explainers. A public record any authority can cite.

Next: 'Be a Rakshak' university chapters at IITs, NITs and SPAs.

Road Safety Month 2026, run **with the system**

With district police, schools, hospitals and delivery platforms, in Hindi and local languages.

National Road Safety Month rally, on the road with district traffic police, Jan 2026.

The institutions around the work

As they appear in our working decks, engagement ranges from formal MoUs and written approvals to jury, mentoring and research collaboration.

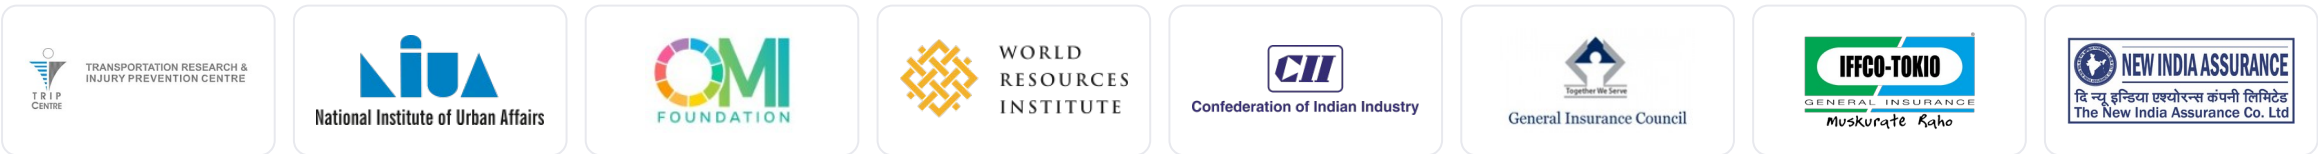

AUTHORITIES & PUBLIC BODIES WE WORK WITH

UNIVERSITIES & INSTITUTES FIELDING AUDIT TEAMS

EXPERT & ECOSYSTEM PARTNERS

Plus: Jaipur Traffic Police & Gurugram Police (MoUs) · CPWD & district administrations · Bloomberg, Johns Hopkins, Centre for Green Mobility and PwC experts on juries and reviews.

A full-time team built for this work

Engineering, law, policy, product and field operations, under trustees who have led Indian road safety for a decade.

Amar Srivastava
President · Founder, Indian Road Safety Campaign · Member, National Road Safety Council

Deepanshu Gupta
Managing Trustee · Founder, IRSC · Global Youth Coalition for Road Safety

Gajendra Jangid
General Secretary · Co-founder, Cars24

THE FULL-TIME TEAM

Akhtar Hussain **Mission Lead**
IIT Delhi · ex-Bain · strategy, programmes, new initiatives, partnerships and product

Krishna Jain **Tech & Product**
Builds and runs Aasha, SATARK and the open public data platforms

Ishita Rathore **People & Culture**
Talent and hiring, volunteers, the 75+ intern engineering corps

Shipra Kushwaha **Creative (Graphic)**
Guides, comics and bilingual campaign material families actually read

Shubham Kumar **Policy & Advocacy**
NALSAR Hyderabad · programmes, policy advocacy, legal research, government relations

Aastha Shreeharsh **Development Communications**
HKUST · institutional communications, government relations

Yuvraj Yadav **Operations**
Field operations across 18 cities · works with police on SATARK and enforcement rollouts

Muskan Yadav **Programmes**
TISS · district programmes, Project Rakshak, infrastructure interventions, DRSC work

Rohan Sharma **Cause Marketing**
Awareness campaigns, digital advocacy, community mobilisation

Lovish **Creative (Video)**
Video explainers, ground-audit films and the YouTube channel

Plus 75+ engineering interns and 31 student audit teams.

In-house capabilities: road-engineering audits · legal & policy research · AI product development · district operations · behaviour-change communication

Advised by the people who built India's road safety practice

Prof. Geetam Tiwari, Board of Advisors

Professor Emerita & Chair, TRIP Centre, IIT Delhi · four decades of transport safety research

Piyush Tewari, Board of Advisors

Founder & CEO, SaveLIFE Foundation · Architect of the Good Samaritan Law · Zero-Fatality Corridors
