

A ROAD SAFETY NONPROFIT • NEW DELHI

Crashfree India

**Technology and governance for road safety,
built into an institution designed to make itself redundant**

Digital public goods: enforcement AI, open data platforms, victim tools on WhatsApp

Governance from inside: 4 district committee seats, police MoUs, 25+ written approvals

Standards, manuals and dashboards built so the system can run this work without us

FOCUS AREAS Road infrastructure • Enforcement • Crash compensation • Gig rider safety • School zones • Open data

A personal note

New Delhi · August 2026

Dear friend,

This deck goes to a small set of people whose judgement I deeply admire. I am writing to ask for something specific: your counsel, from time to time, as Crashfree India grows.

Crashfree India is a road safety nonprofit, registered as the Vision Zero Trust, co-founded with the Indian Road Safety Council and backed by Cars24. India loses more than 1.7 lakh lives on its roads every year. In our first year we built an audit-to-implementation engine that has moved 15 dangerous sites into rectification, an AI enforcement platform running with three police forces, a compensation practice that follows crash victims' families from FIR to disbursal, and open data platforms that turn scattered public records into citable evidence. MS Dhoni carries this message to the country as our Goodwill Ambassador.

The work has reached the stage where ambition can outrun experience. We are deciding which programmes become institutions, how to work with government at scale, and how to build an organisation that can hold this mission for a decade. On questions like these, we have more energy than experience, and we know it.

The pages that follow are a short tour of what we have built. If the work speaks to you, I would be grateful for an hour of your time, and for the licence to write to you when we face a decision where your experience would show us the way.

With respect,

Akhtar Hussain

Mission Lead, Crashfree India · akhtar@crashfreeindia.org · crashfreeindia.org

Crashfree India: technology and policy, **built to be handed over**

Registered as the Vision Zero Trust · Co-founded by Cars24 and the Indian Road Safety Council · Working since June 2025 · New Delhi

Evidence first

Structured field audits, file reviews and research to official standards, not opinion.

Technology as public goods

Enforcement AI, open data platforms and WhatsApp tools, built with authorities and free for any of them to adopt.

Policy that lands

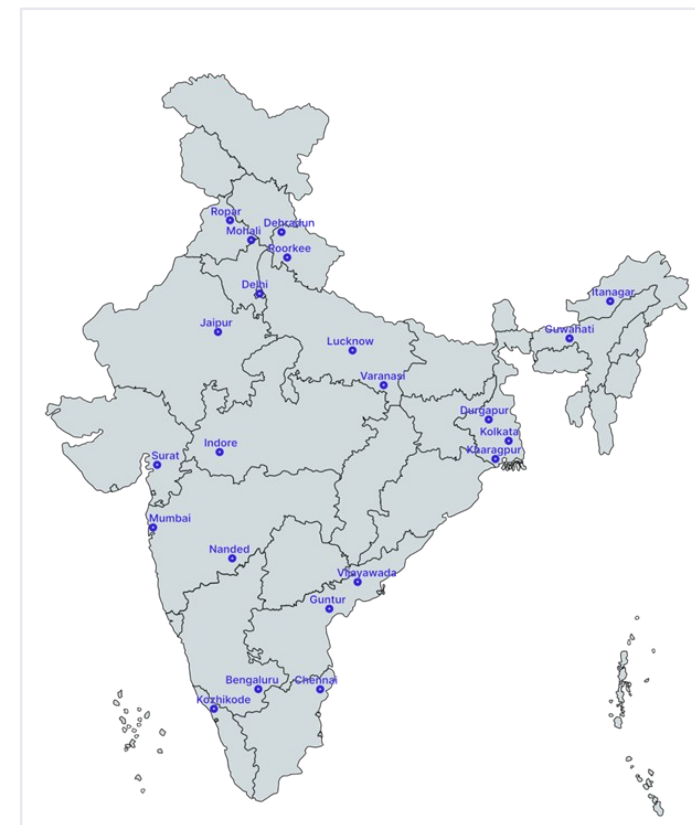

Research written so officials can act on it: briefed to ministries and district committees, cited by national newsrooms.

Built to make ourselves redundant

Standards, audit manuals and public dashboards designed so institutions can run the work without us.

Proof in year one: 31 sites audited · 25+ written authority approvals · implementation started at 15 sites · 3,00,000+ vehicles screened · seats on 4 district committees

Where we work today, 18 cities, north to south.

Six lines of work, one connected system

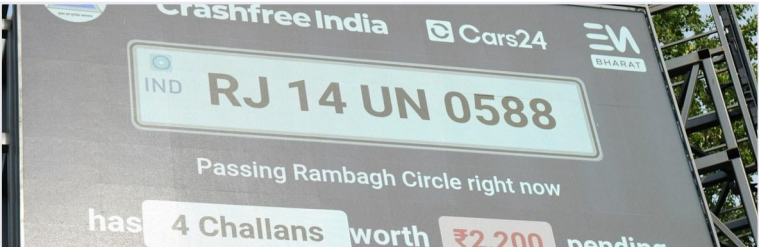

Audits create data · data supports policy · policy guides the field. Everything below is live today.

Project Rakshak

Student-led road audits, fixed with authorities

31 sites · 7 fixes fully built

SATARK enforcement

AI support that helps police find high-risk vehicles

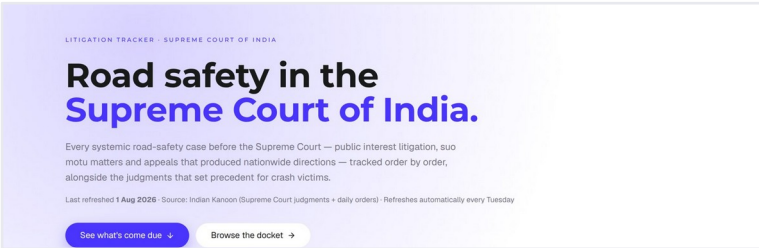

3,00,000+ vehicles screened

Victim support

Aasha chatbot, calculator, hospital helpdesks

100+ victims helped in first 4 days

Open public data

Four self-updating data platforms, free to use

36 states & 50 cities covered

Youth & policy

NextMile ideathon and national dialogue series

2,000+ participants engaged

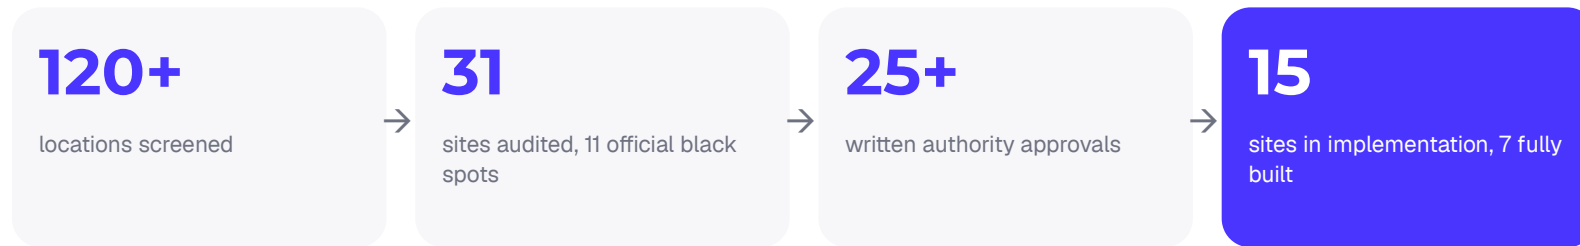

Public campaigns

Road Safety Month with police & schools; MS Dhoni

1M+ citizens reached

Project Rakshak: student audits that end in built fixes

Trained student teams, guided by senior experts, audit dangerous locations to IRC codes, and we walk each fix through the road-owning authority until it is built.

31 student teams · 20 institutions including nine IITs · 900+ stakeholder surveys · 17 subject-matter experts guiding every audit

MARQUEE CASE, OUTER RING ROAD, SOUTH DELHI

On our audit, PWD built a continuous 1.8 m accessible pedestrian corridor, upgraded drainage at ponding sites, installed bollards against footpath encroachment, and deployed camera-backed speed-feedback boards.

Every site is tracked on a public dashboard from submission through approval to completed construction, an honest read on how quickly agencies can act.

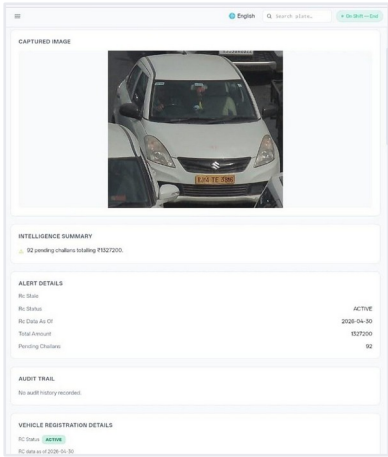

Construction underway after a student audit, tracked publicly to completion.

SATARK: AI that helps police stop the right vehicle

Built with Cars24 engineers. Reads number plates, checks government records, and alerts officers to repeat offenders, in real time.

Rambagh Circle, Jaipur, live plate, pending challans and dues on a public billboard.

Officer view, challans, RC & compliance status.

3,00,000+

vehicles screened

₹30 Cr+

pending challan value identified

350+

high-risk vehicles intercepted

70,019

vehicles found with pending challans

LIVE · Jaipur & Bengaluru

NEW · Gurugram

Bengaluru's Trinity Circle billboard was India's first, covered by Deccan Herald and national press. Pune and Ahmedabad are next.

Live public data platforms, free for any authority

Four platforms, each turning a scattered public record into structured, citable evidence. The Parliament tracker is shown live, as captured this week.

Crashfree India

A Cars24 Commitment

RTI WATCH · PARLIAMENT WATCH

A CRASHFREE INDIA PUBLIC DATABASE

Every road-safety question in Parliament since 2014.

And the MPs who never asked one.

All 1,444 Lok Sabha and Rajya Sabha questions on road safety — put to the four ministries that own it: Road Transport & Highways, Health (trauma care), Heavy Industries (vehicle standards), and Housing & Urban Affairs (pedestrian safety). Reconciled against Parliament's own records so nothing is missed. Search who asks,

Road Safety in Parliament: all 1,444 questions since 2014 across four ministries; 275 of 540 sitting Lok Sabha MPs have never asked one.

National Road-Infrastructure Defect Repository

DAILY · 07:00 IST

An AI pipeline reads local-language news every morning and turns road-defect reports into structured, mapped, ranked evidence, each entry carrying its verbatim source.

Potholes

Missing signage

Unlit stretches

Blind curves

Broken dividers

146

districts scanned daily

13

languages read

21

defect codes tracked

Local news → AI extraction → confidence gate → human review → public map. Live across Bihar, UP and Rajasthan districts today.

Supreme Court Litigation Tracker

WEEKLY · LIVE

Every systemic road-safety matter before the Supreme Court, orders indexed, precedent judgments digested, refreshed every Tuesday.

18

tracked cases, 190+ orders

11

court directions overdue at launch

Crash Data Dashboard

ANNUAL · OPEN DATA

MoRTH's annual 'Road Accidents in India' books as a usable product: report cards for 36 states and 50 cities, every number reconciled against the printed books, open licence (CC-BY).

485

people killed per day (RAI 2024)

36+50

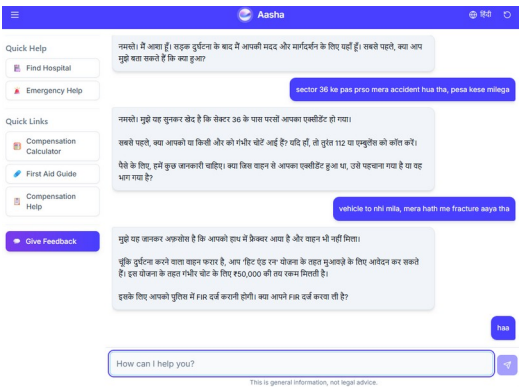

state and city report cards

Crashfree India · A briefing for mentors · 2026

Help a family can actually use, in their language

From the first hours after a crash to the final compensation order, on WhatsApp, on paper, and in person.

Aasha chatbot

India's first AI legal companion for crash victims, on WhatsApp and voice, no app needed.

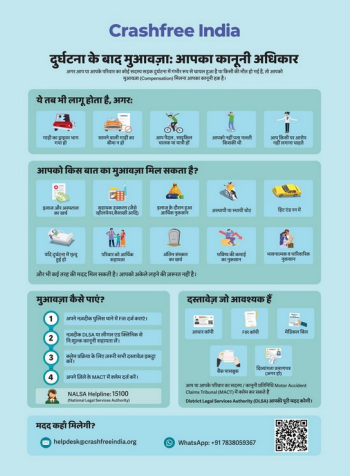

Compensation Calculator

Free instant estimates computed on Supreme Court principles (Sarla Verma, Pranay Sethi).

'Meet Aasha' comics

Plain-language legal education that families actually read, at desks and in schools.

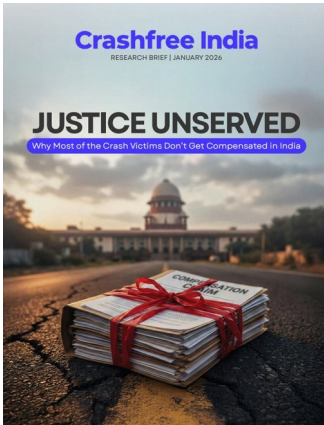

Hindi rights guide

All three compensation routes, NALSA 15100 and the Cashless Treatment Scheme 2025.

Hospital helpdesks bring all of this to the trauma-ward bedside, 100+ victims supported in the first four days, run with DLSA and Neev Foundation.

Published evidence the sector cites

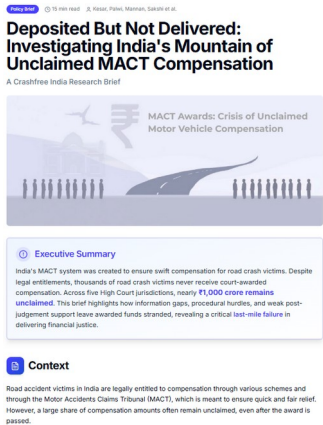

Original research, launched publicly and covered by national press. Each report turns a policy gap into something authorities can act on.

'Justice Unserved'

Jan 2026

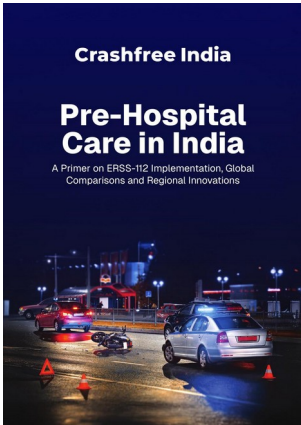

Why so few hit-and-run and third-party claims reach the families entitled to them. Launched at IIT Delhi; findings presented to MoRTH.

'Deposited But Not Delivered'

2026

~₹986 crore of court-awarded compensation lies unclaimed across five High Court jurisdictions, a bottleneck the Supreme Court noted in 2025.

Pre-Hospital Care Primer

Sep 2025

Benchmarks ERSS-112 response and documents state EMS innovations, with contributions from the AIIMS Trauma Centre.

Plus: the gig-rider brief 'When Risks Become Routine', and four open public-data platforms, all free to use and openly licensed.

The fastest-growing risk on Indian roads **rides a two-wheeler**

Two-wheeler riders carry the largest share of road deaths, and gig and delivery work concentrates that exposure. We study it, and we work it.

~45%

of India's crash fatalities are two-wheeler users, rising year on year

23.5 M

gig and platform workers projected by 2029-30 (NITI Aayog)

1 in 2

delivery riders in a 431-rider Mumbai crash study had already crashed

A published study

'When Risks Become Routine' (Feb 2026): 40 pages, 87 references, from incentive design and helmet compliance to the e-bike regulatory blind spot.

A 300-rider study, now in the field

Quantifying how often riders face near-misses, which risk factors matter most, and what rider profiles exist, so interventions can be targeted.

Field, not only desk

Fieldwork included shadowing a delivery rider through a full nine-hour shift, documented on video.

Delivery-rider outreach, Road Safety Month 2026.

School Safety Index: a public score for every school's road

A child's walk to school can be graded. We grade it against India's own standard, publish the evidence, and hand the worst zones to field teams and the road-owning authority.

Screening at city scale

Dated Street View imagery, scored 0–100 by an AI auditor against IRC:SP:32-2023, India's school-zone standard, and independently verified before publication.

Delhi and Jaipur first

5,386 schools mapped across the two cities. Named schools and per-school photo evidence published from the first batch, re-audited every six months.

It measures the road, never the school

A low score is a demand on the road-owning authority, not a criticism of the school. The worst zones feed our student field audits, the 41-check ground tier.

~10,000

minors died on Indian roads in 2023 (MoRTH)

4.6%

of crashes occur in school and college zones (e-DAR 2024)

730+

schools graded from imagery worldwide, validating the method (iRAP)

Crashfree India School Safety Index

DELHI NCR PILOT · METHOD v0.1

Rankings Methodology

How safe is the road outside the school gate? We grade it, school by school, in public.

Each school's road frontage is assessed from dated Google Street View imagery against the visible requirements of IRC SP:32-2023 — India's school-zone road standard — scored by an AI auditor, independently verified, and published with the exact evidence images. Lowest grades first: they are the priority list.

3,814 schools identified across Delhi NCR	90% have Street View imagery	54% imagery from 2024 or newer	5 audits published (verified)	5 graded C or D — priority sites
---	--	--	---	--

Rankings — worst first

#	GRADE	SCHOOL	SCORE	IMAGERY DATE	STATUS
1	D	Titikha Modern Public School F-3528, Hanuman Mandir Road, Block F, Sadatpur, Karawal Nagar, New Delhi, Delhi, 110090, India	0/100	2026-04	VERIFIED
2	D	Sona Modern Public School · Best CBSE School in Kharpur, Delhi A-3/4, Devil Rd, Kharpur Village, Kharpur, New Delhi, Delhi 110080, India	5/100	2026-04	VERIFIED
3	D	Raghubir Singh modern school 126, Road No. 7, Rajan Enclave, Vikas Nagar, Deepak Vihar, Uttam Nagar, Delhi, 110059, India	10/100	2022-04, 2025-11	VERIFIED
4	D	Ganga International School, Rohini pocket 8, Sector 21, Rohini, New Delhi, Delhi, 110086, India	15/100	2026-04	VERIFIED
5	D	Rockford Convent Sr Sec School Shakti Park Colony, Sector 10A, Gurugram, Haryana 122001, India	38/100	2026-04	VERIFIED

Grades reflect visible infrastructure on the imagery date only — see the [methodology](#) for scope, limits and the correction process. Scores within ±5 points are equivalent. A low grade is a demand on the road-owning authority, not a criticism of the school. Audits are published in small verified batches; this table grows continuously.

The pilot dashboard: score-first, evidence-pinned. Delhi and Jaipur batches are in build now.

The work, as the press tells it

National newsrooms cite our research, cover our deployments, and quote our researchers by name.

DECCAN HERALD · MARCH 2026

'Road crash victims struggle as ₹80,000 crore compensation lies unpaid'

National coverage of our 'Justice Unserved' brief; the paper hosts the full report for its readers.

INDIASPEND · THE WIRE · MAY 2026

'For India's road accident survivors, legal compensation is elusive'

Quotes our research lead Kesar Kanjhia on where claims stall; republished by The Wire.

INDIASPEND · MARCH 2026

'One crash, years of crisis: the hidden scale of serious road injuries'

Cites our gig-rider research; quotes Aastha Shreeharsh on the risk data India does not yet collect.

DECCAN HERALD · BENGALURU

'Big Boss' watching: billboard at Trinity Circle shows violations in real time

Our live challan billboard with Bengaluru Traffic Police, built with Cars24.

THE LOGICAL INDIAN & OTHERS

'India's first AI-powered billboard to display pending challans in real time'

The same deployment, also covered by Siasat, CarToq, Media Infoline and Daily Jagran.

FROM OUR POLICY DESK

A steady line of published argument

Articles and explainers by Shubham Kumar and our policy team, from claim pipelines to enforcement design, published through Crashfree India.

Also in the record: 'Justice Unserved' launched at IIT Delhi and presented to MoRTH · launch coverage in Team-BHP, Adgully and The CSR Universe.

Young talent and senior experts, working the same problem

A steady pipeline of engineers and policy minds, so road safety work never runs out of hands.

NextMile: Road Safety Policy Ideathon, grand finale, 28 Sep 2025, New Delhi.

2,000+	250+	700+	10
participants	concept notes	teams	finalist teams

National Road Safety Implementation Forum, IIT Delhi: 60+ experts from MoRTH, WHO, UNICEF, iRAP and CSIR-CRRI reviewed the work.

Mentors and jury from the Government of Rajasthan, NIUA, OMI, NASSCOM and CSEP judged the student teams; winning tracks now feed our audit and research pipeline.

National Road Safety Dialogue Series

200+ live attendees; speakers from MoRTH, CIRT, AIIMS Trauma Centre, CSIR-CRRI and ARAI.

Three sessions so far

Bus safety · Delivery rider safety · Good Samaritan law & the Cashless Treatment Scheme.

Advocacy on video

Our YouTube channel documents hazards and fixes on camera: ground-audit walkthroughs, Dialogue Series recordings and victim-education explainers. A public record any authority can cite.

Next: 'Be a Rakshak' university chapters at IITs, NITs and SPAs.

A full-time team built for this work

Engineering, law, policy, product and field operations, under trustees who have led Indian road safety for a decade.

Amar Srivastava
President · Founder, Indian Road Safety Campaign · Member, National Road Safety Council

Deepanshu Gupta
Managing Trustee · Founder, IRSC · Global Youth Coalition for Road Safety

Gajendra Jangid
General Secretary · Co-founder, Cars24

THE FULL-TIME TEAM

Akhtar Hussain **Mission Lead**
IIT Delhi · ex-Bain · strategy, programmes, new initiatives, partnerships and product

Krishna Jain **Tech & Product**
Builds and runs Aasha, SATARK and the open public data platforms

Ishita Rathore **People & Culture**
Talent and hiring, volunteers, the 75+ intern engineering corps

Shipra Kushwaha **Creative (Graphic)**
Guides, comics and bilingual campaign material families actually read

Shubham Kumar **Policy & Advocacy**
NALSAR Hyderabad · programmes, policy advocacy, legal research, government relations

Aastha Shreeharsh **Development Communications**
HKUST · institutional communications, government relations

Yuvraj Yadav **Operations**
Field operations across 18 cities · works with police on SATARK and enforcement rollouts

Muskan Yadav **Programmes**
TISS · district programmes, Project Rakshak, infrastructure interventions, DRSC work

Rohan Sharma **Cause Marketing**
Awareness campaigns, digital advocacy, community mobilisation

Lovish **Creative (Video)**
Video explainers, ground-audit films and the YouTube channel

Plus 75+ engineering interns and 31 student audit teams.

In-house capabilities: road-engineering audits · legal & policy research · AI product development · district operations · behaviour-change communication

Where we are going, and where your counsel would help

Year 2 moves from programmes to institutions. These are the goals, and the questions we would bring to a mentor.

THE YEAR AHEAD

	Project Rakshak	Audits running inside institutions, with 75+ implementations initiated and every one tracked publicly.
	Crash compensation	Claim pipeline fixed in two districts, mapped in eight, with a playbook states can adopt.
	SATARK	From 3 cities toward 30, as shared public infrastructure for traffic police.
	Two exploratory bets	School Safety Index and gig rider safety, each scaled only if a small, honest pilot earns it.
	Institutions that outlive us	An expert consortium, an audit manual and a publishing cadence that outlive any single cohort.

WHERE GUIDANCE WOULD HELP

	Institution building	Turning young programmes into bodies with standards, governance and a life beyond the founding team.
	Government at scale	Deepening state partnerships while keeping our independence and our habit of publishing everything.
	People and leadership	Growing a young team into leaders, and drawing senior operators to a nonprofit mission.
	Sustainability	Building funding lines beyond the founding commitment, without distorting what we work on.
	Focus	What to stop, what to scale, and when. The discipline of a small organisation with a national mission.

No life lost on an Indian road is acceptable.

We add the hands, the evidence and the tools that turn that goal into work the system can carry, and we track it in public.

"We already know what is going wrong. What we need now is more responsibility, more discipline, more respect for life."

MS Dhoni · Goodwill Ambassador, Crashfree India
